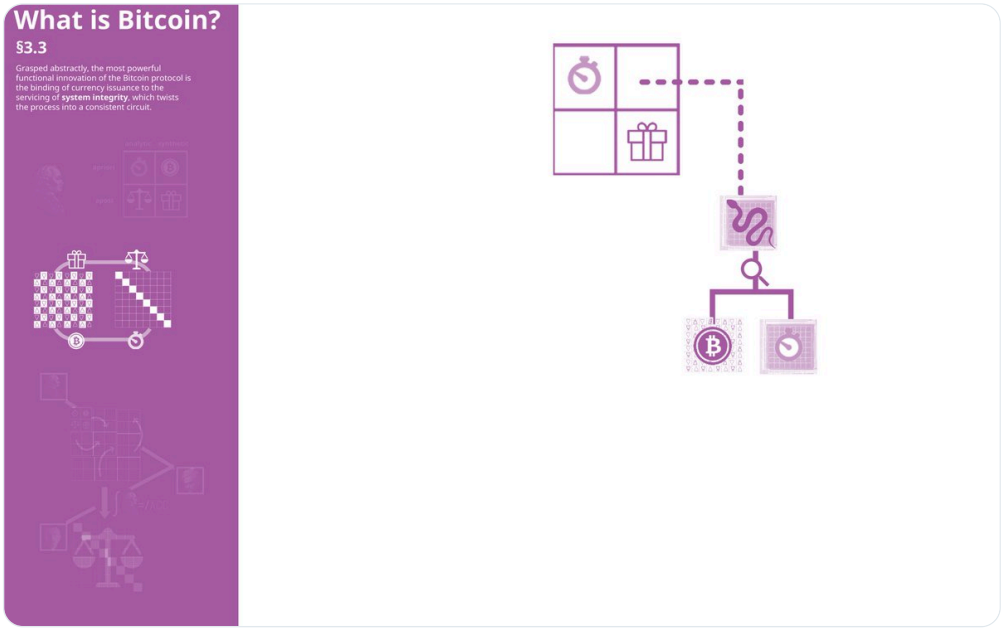
§3.334

Land shows that artificial time index = product metatag via the Bitcoin hash. It is the synthetic apriori, binding time and capital, implementing the search function in Bitcoin equating identity to work.

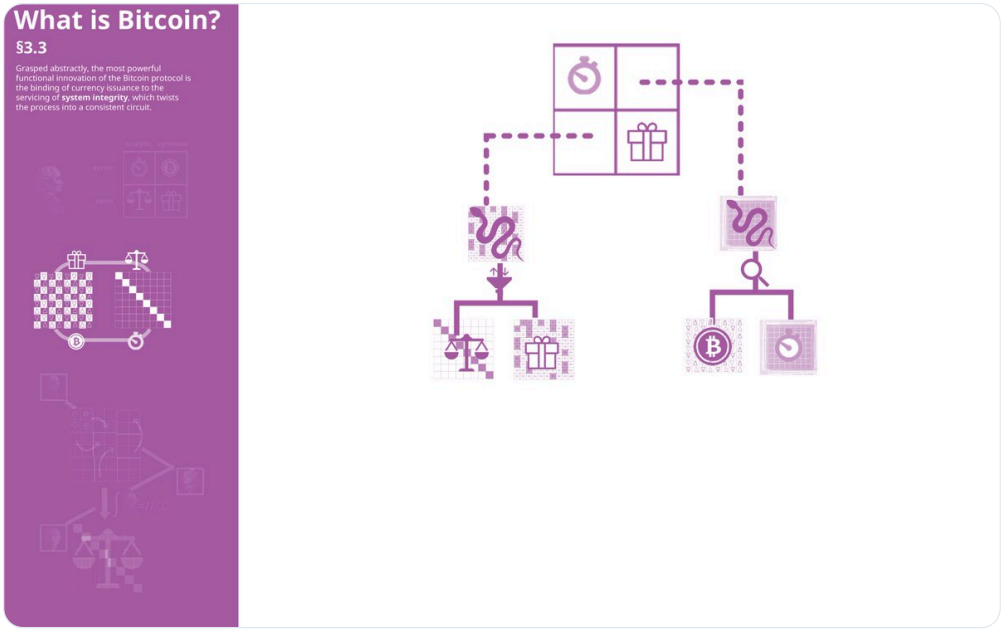


What is Bitcoin?
§3.3
Grasped abstractly, the most powerful functional innovation of the Bitcoin protocol is the binding of currency issuance to the servicing of system integrity, which twists the process into a consistent circuit.

§3.3341

Diagonalization is a dynamic analysis of bitcoin insertion recomputing the “unique solution” providing optimal price/alloc for exchange between pertinent parties. It sorts (works) to draw out the embedded manifest universal condition:an Analytic aposteriori

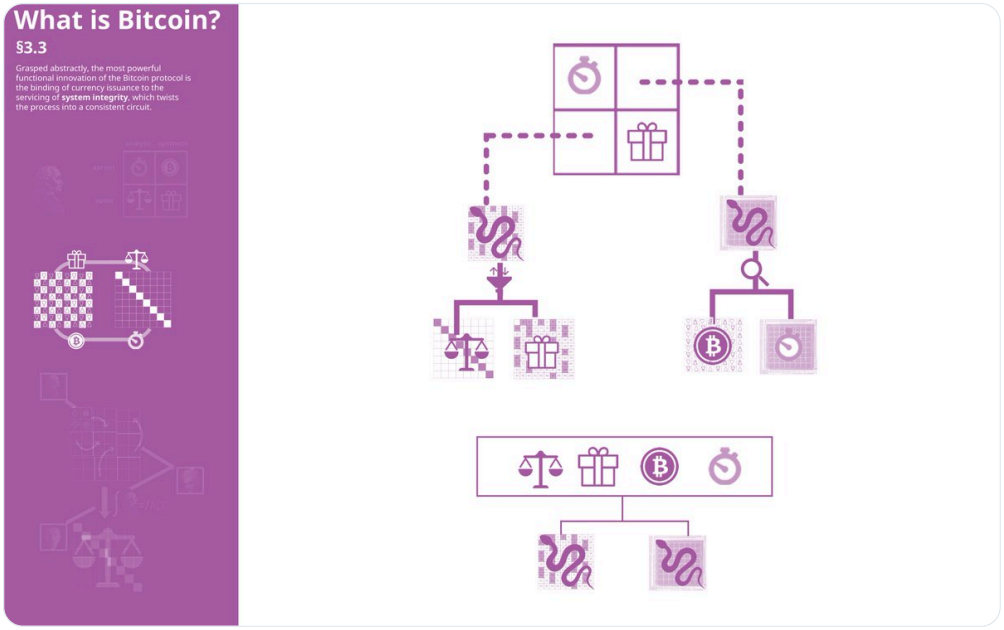
#cryptocurrent



What is Bitcoin?
§3.3
Grasped abstractly, the most powerful functional innovation of the Bitcoin protocol is the binding of currency issuance to the servicing of system integrity, which twists the process into a consistent circuit.

§3.33421

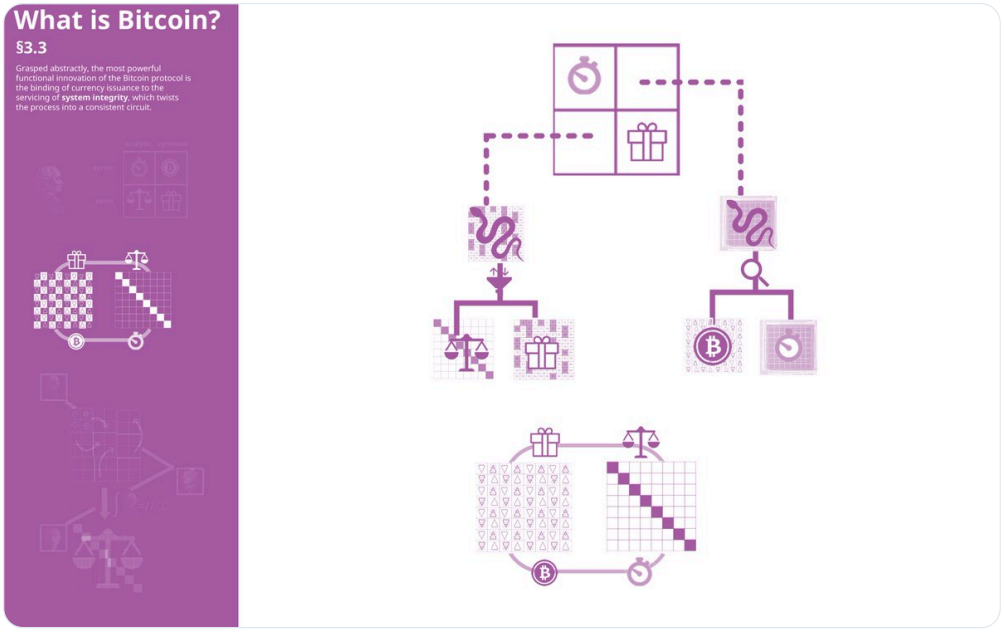
Bitcoin indexicalization under artificial time = the recomputation of the diagonal required for optimal resource alloc. and pricing. Distinction is a time judgement made by the entity matching the transcendental stature of Bitcoin, none. It is a true autoproduction.



What is Bitcoin?
§3.3
Grasped abstractly, the most powerful functional innovation of the Bitcoin protocol is the binding of currency issuance to the servicing of system integrity, which twists the process into a consistent circuit.

§3.3343

Capital 🅱️ Bitcoin liquifies the Kantian binary combinatoric into a high resolution flattened space. Analy/Synt/Apri/Apost/ distinction become quantumly indistinguishable, time/gift/num/entropy are all effected simultaneously.This is what is at stake in📈system integrity



What is Bitcoin?
§3.3
Grasped abstractly, the most powerful functional innovation of the Bitcoin protocol is the binding of currency issuance to the servicing of system integrity, which twists the process into a consistent circuit.

This entire set commenting on §3.31[search/index]=§3.32[sort/diagonlization] should have been §3.336X

Twitter doesn't unfortunately run on the blockchain to correct my mistakes.
